Customers

and many more...

Happy Customers

MOUMITA CHANDRA
SENIOR ASSOCIATE, CLASP

Webority helped us move from a manual, delayed inspection process to a centralized system with real-time visibility. Compliance tracking is now faster and more reliable.

ANKIT CHANSORIA
PARLIAMENT OF INDIA

Webority really made the ordering process smooth for users. They understood the environment and gave a solution that works with no unnecessary complications.

PRASHANTA KUMAR
CEO, COMPLYSOFT

Really enjoyed the process working with Webority, which helped us deliver quality to our customers. Our clients are very satisfied with the solution.

BALAJI SRINIVASAN
CTO, DREAMFOLKS

Loved the post delivery support services provided by Webority, seems like they're only a call away. The guys are very passionate and responsive.

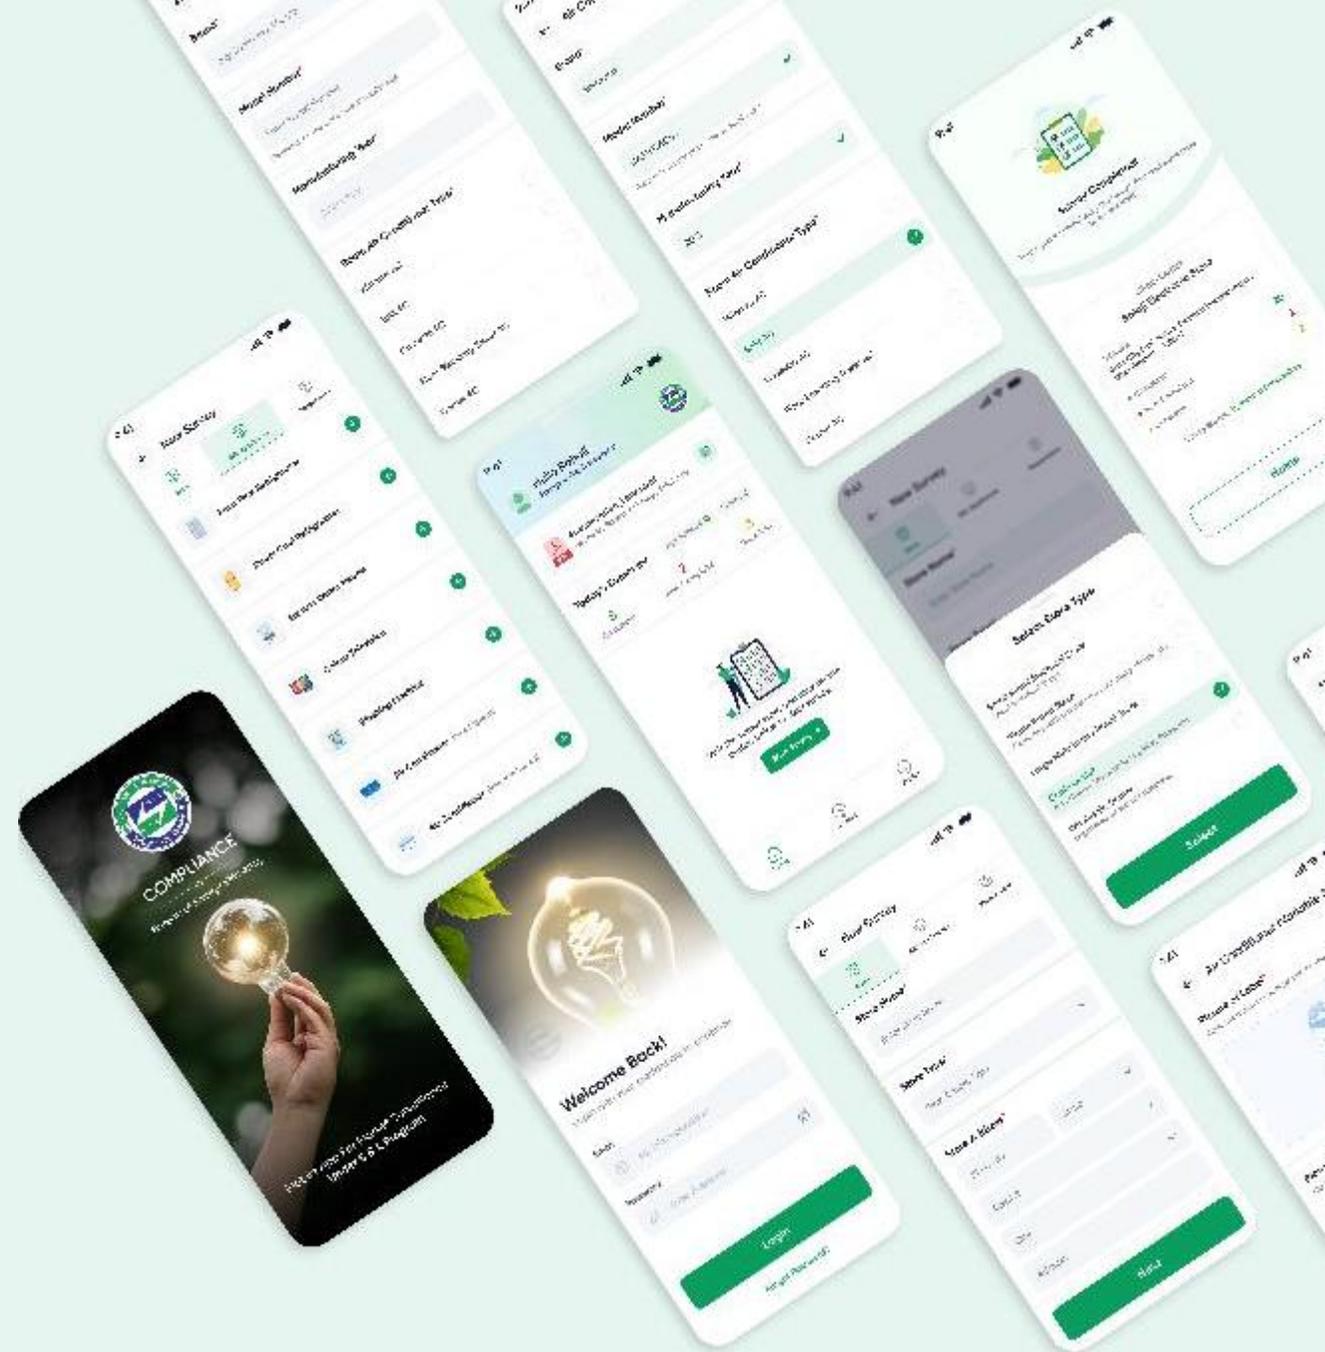

SUCCESS STORIES

BUREAU OF ENERGY EFFICIENCY

BEE Star Label Platform

Digitizing appliance label compliance inspections for the Govt. of India-Bureau of Energy Efficiency (BEE).

- Developed mobile and web platform for real-time market surveillance across India.
- Enabled surveyors to validate star labels, capture data, and generate instant reports.
- Central dashboard allowed BEE and SDAs to monitor inspections and take regulatory action.
- Improved inspection speed, accuracy, and national-level visibility of energy efficiency compliance.

QUALITY COUNCIL OF INDIA

SAMAR Certification Portal

Currently implementing a national-level certification platform for the Quality Council of India (QCI). The platform manages end-to-end workflows for applications, assessments, and committee-based approvals.

- **Scheduling & Committee Management** - Role-based workflows for applicants, assessors, and committees; structured scheduling of assessments and multi-level review meetings.
- **End-to-End Workflow Automation** - From application submission to committee decision and final certification.
- **Dashboards & Real-Time Tracking** - Stakeholder dashboards for progress tracking, status updates, and analytics.
- **Transparency & Audit Trails** - Full visibility of decisions with document management and traceability.

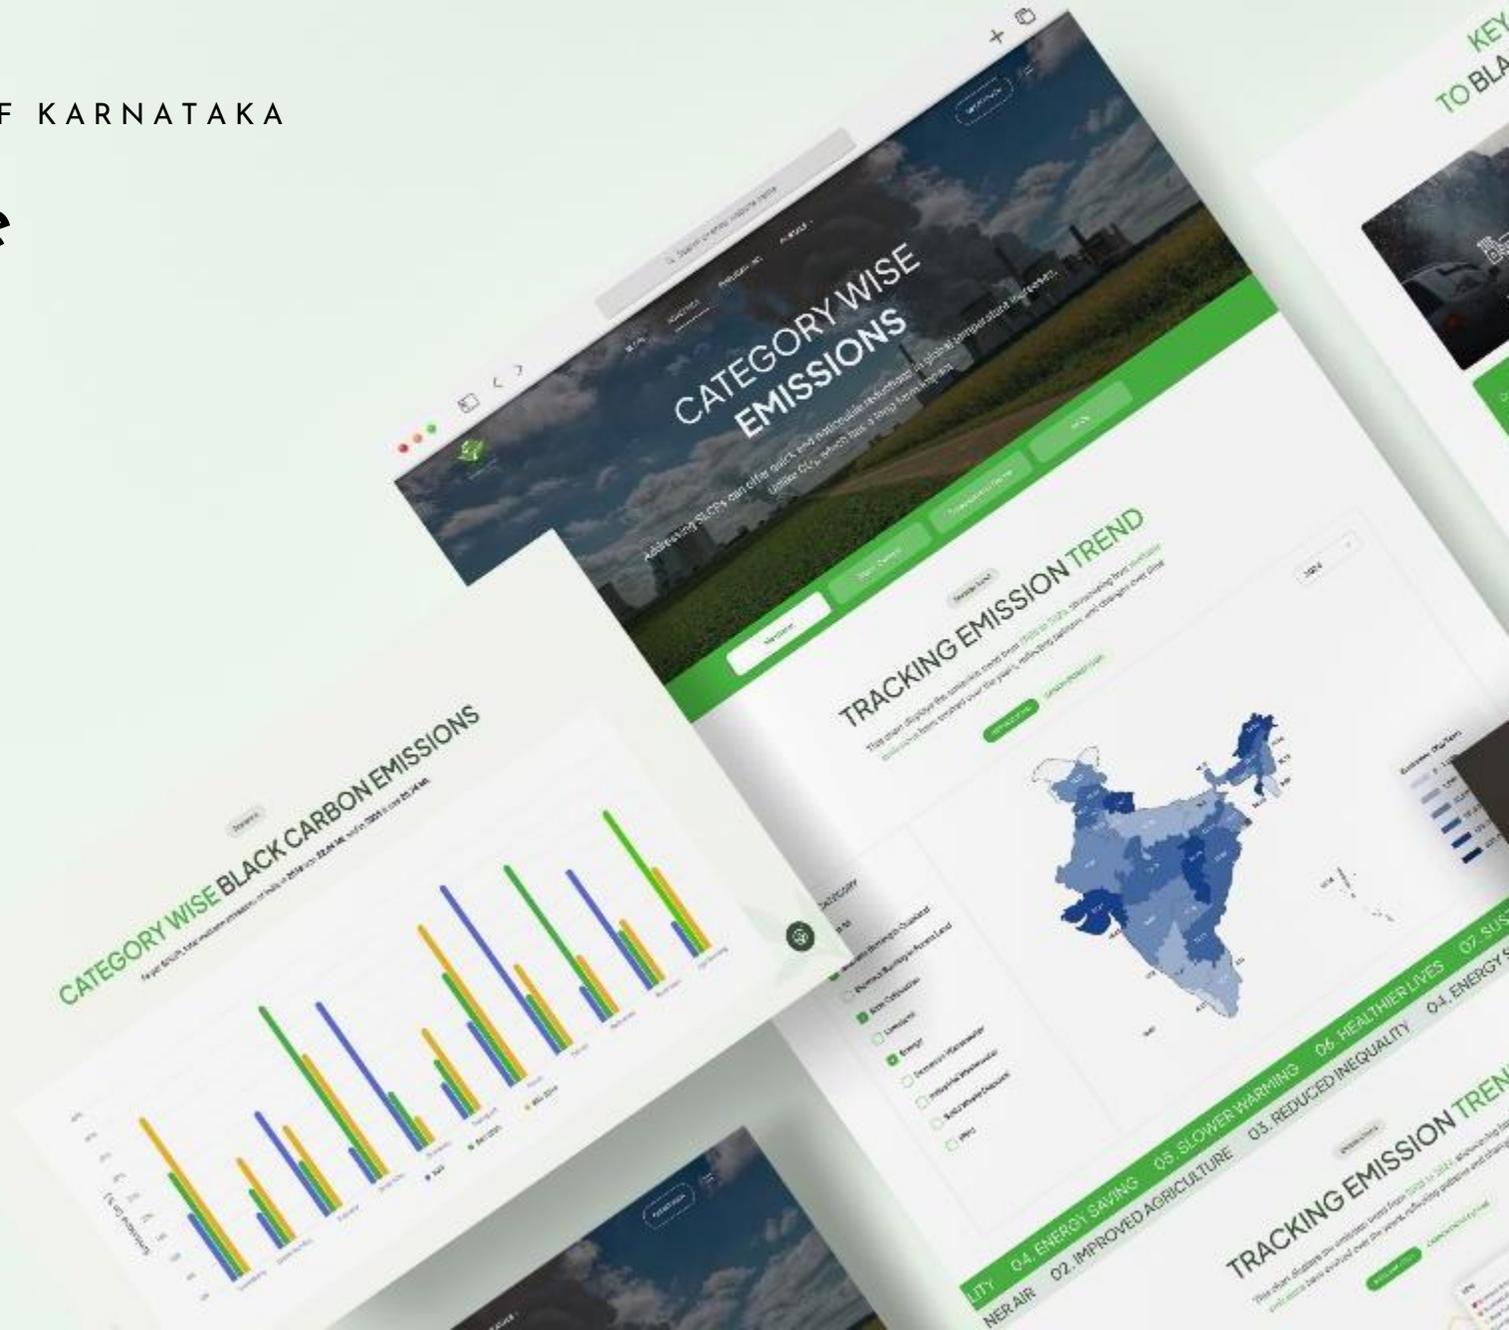

VASUDHA FOUNDATION / GOVERNMENT OF KARNATAKA

SLCP Analytics Website

Proposed and implemented a state-level emissions intelligence system for the Government of Karnataka to support targeted SLCP(Short-Lived Climate Pollutants) mitigation.

- Mapped methane and SLCP emissions across sectors using geospatial and district-level data.
- Built interactive dashboards showing emission loads, treatment gaps, and mitigation costs.
- Deployed sector-wise strategies like biomining, anaerobic digestion, and landfill gas recovery.
- Enabled data-driven climate planning for state and national policy actions.

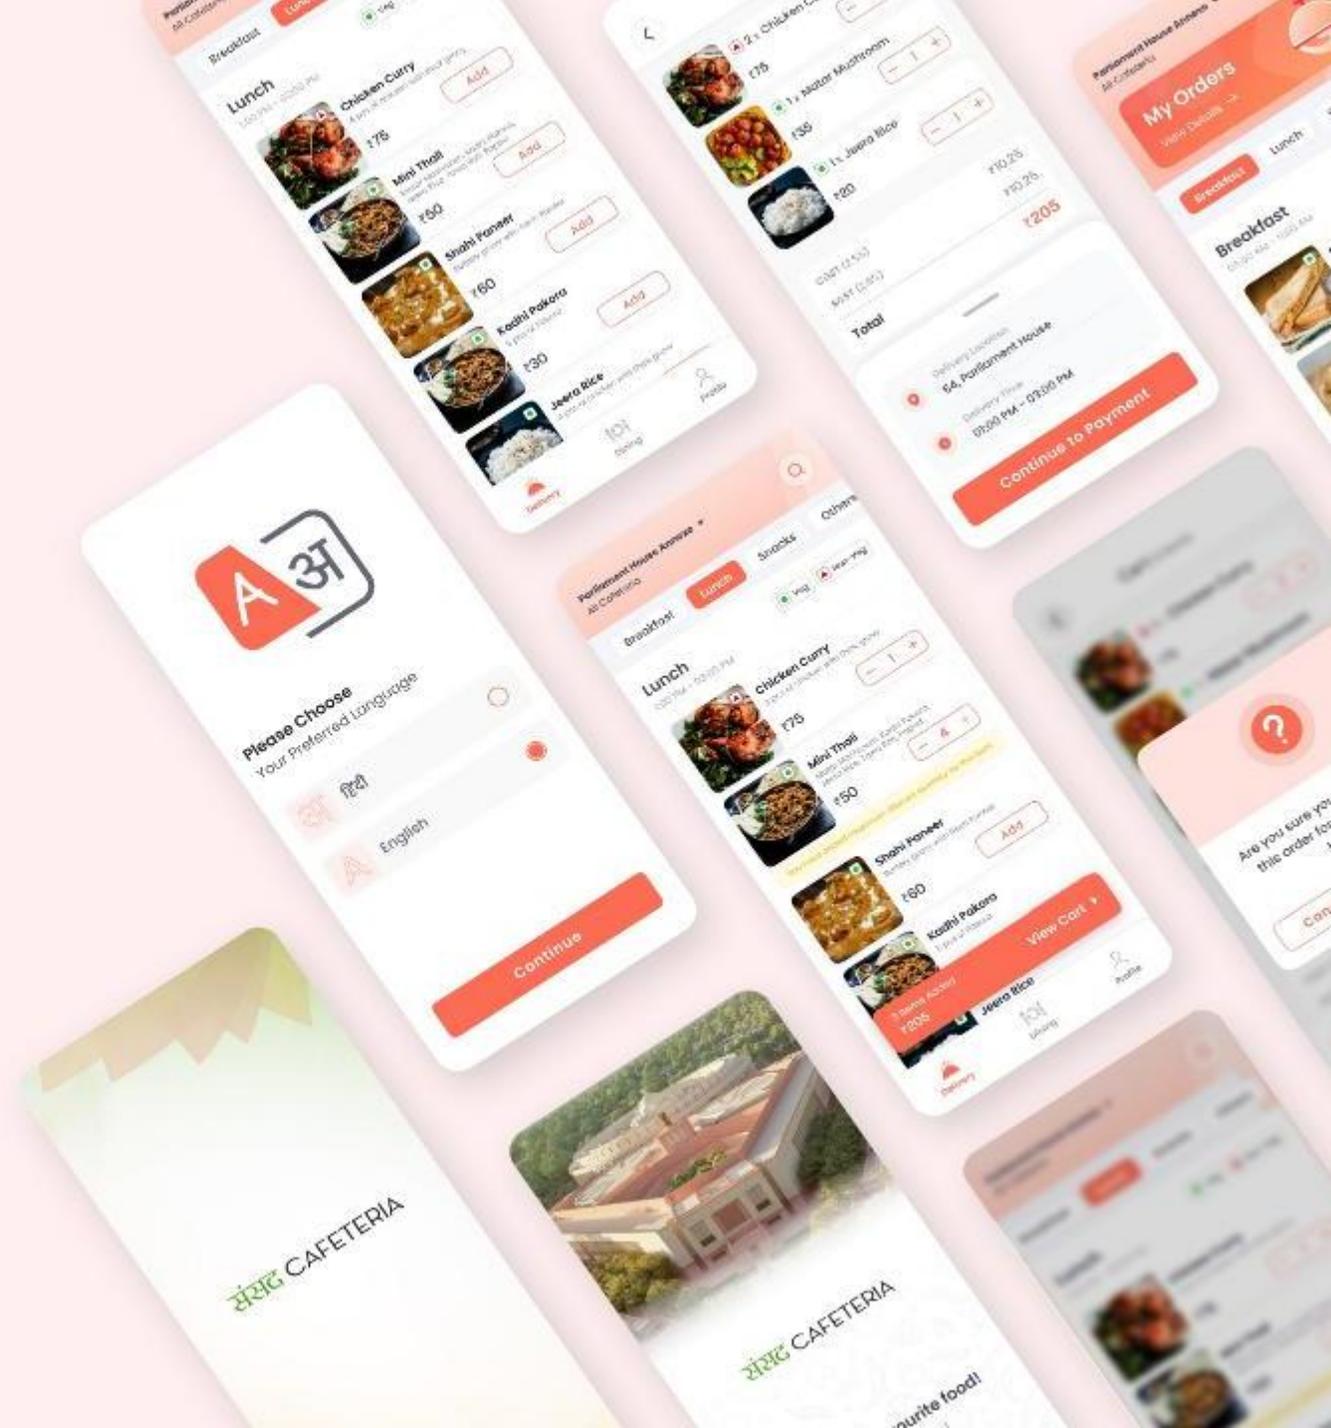

PARLIAMENT OF INDIA

Sansad Cafeteria

Streamlining food ordering and delivery operations within the Indian Parliament.

- Built a mobile app for MPs and staff to order food across Parliament premises.
- Enabled real-time menu access, QR-based pickup, room delivery, and payment integration.
- Provided an admin portal for ITDC to manage orders, menus, roles, and reporting.
- Reduced wait times and brought digital efficiency to a high-security environment.

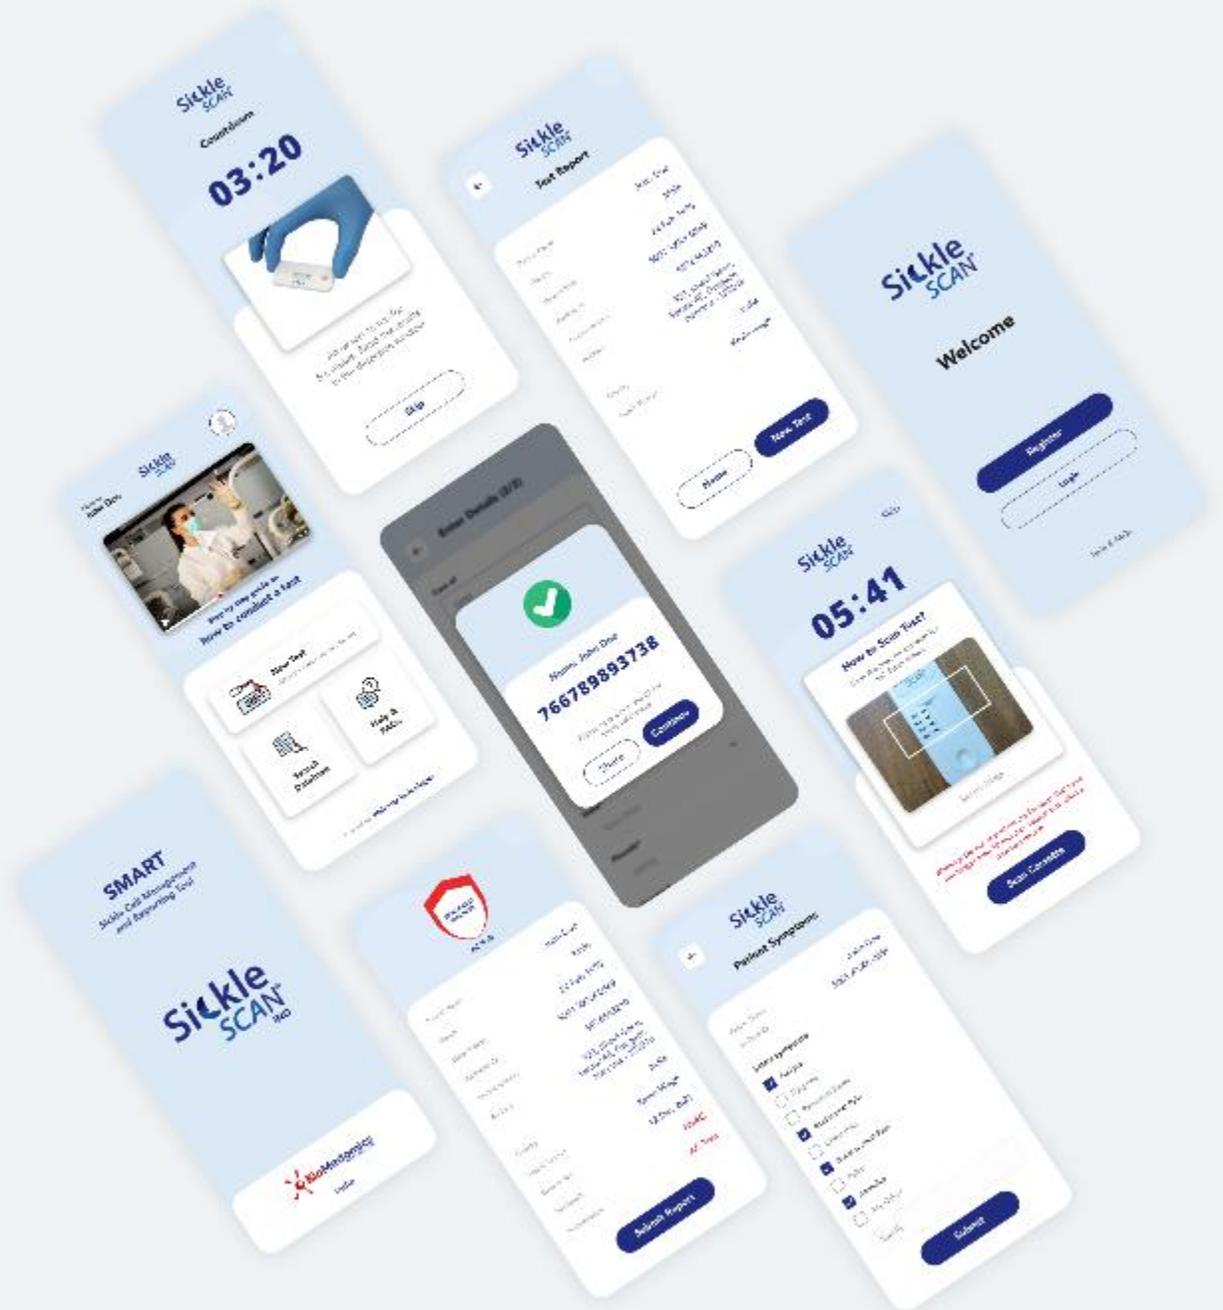

MINISTRY OF TRIBAL AFFAIRS

Sickle Scan App

Developed a mobile solution for the Ministry of Tribal Affairs to record and track Sickle Cell disease data in tribal regions.

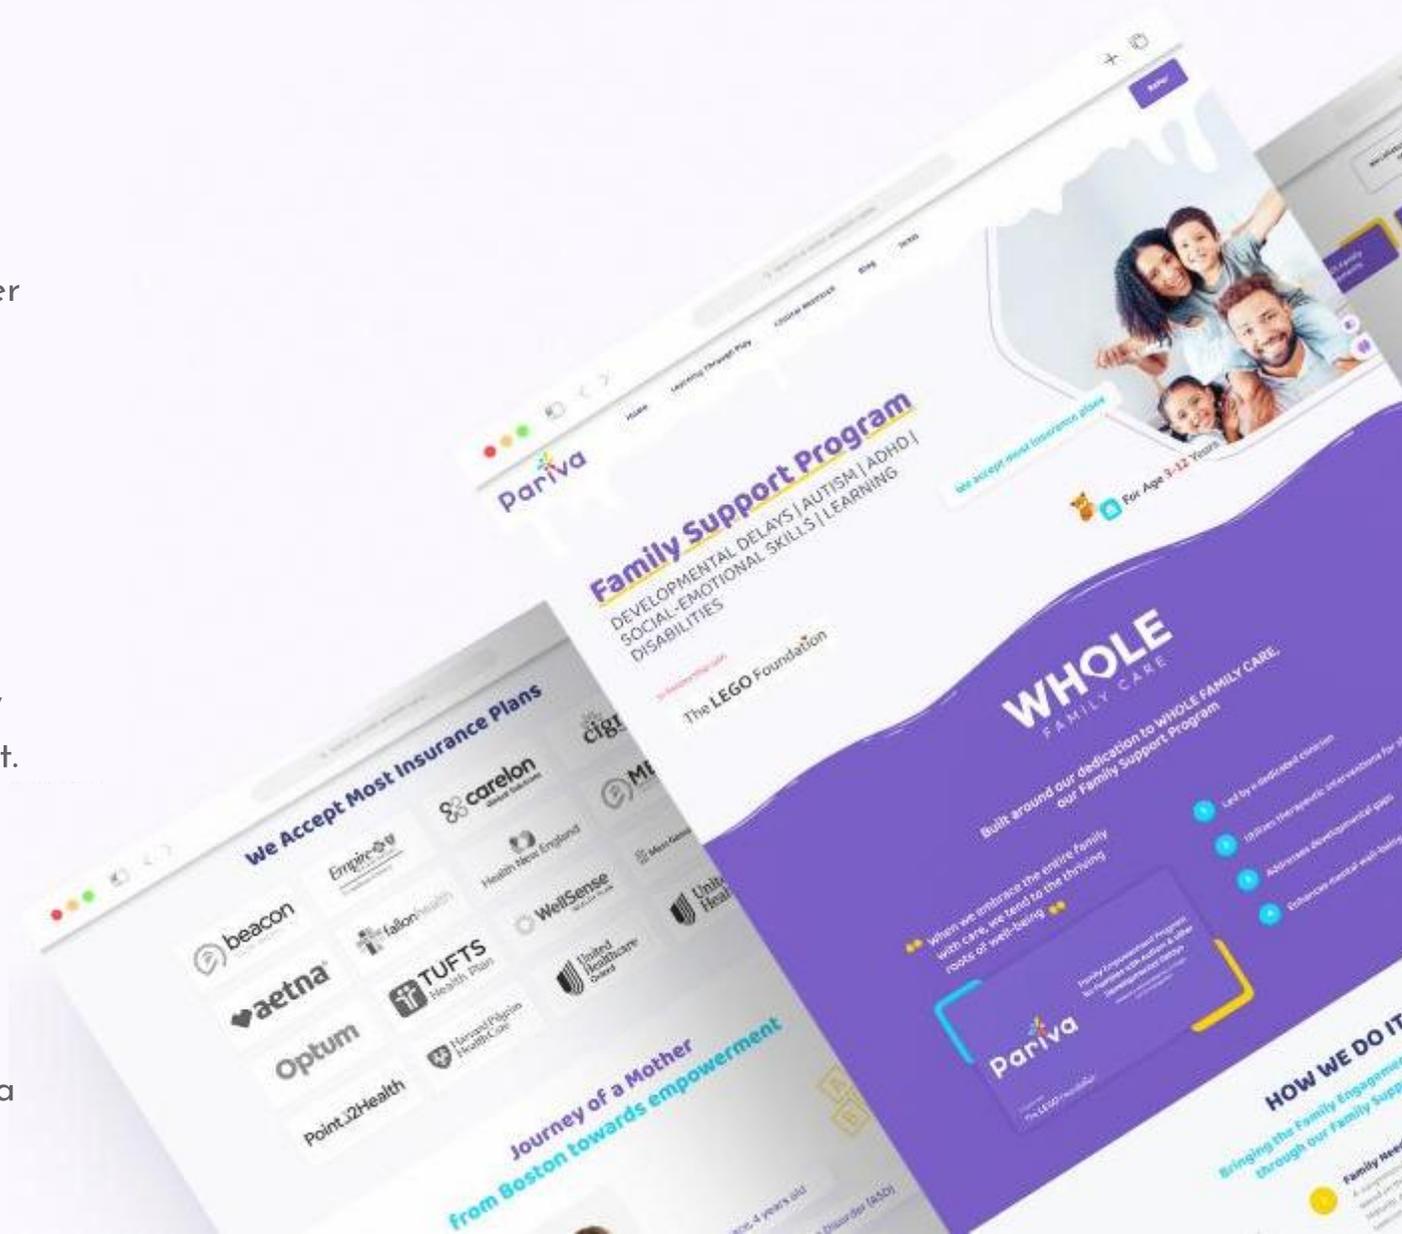

- Created a mobile-first data collection tool to support India's largest government-backed Sickle Cell screening initiative.
- Enabled field health workers to scan, capture, and upload test results from tribal and remote regions.
- Integrated real-time dashboards for government teams to monitor testing progress.
- Ensured multilingual support, offline functionality, and compliance with health data privacy standards.

Pariva Health

Designed and developed a tailored, multi-portal digital healthcare platform for Pariva Health, a US-based provider supporting children with developmental delays, autism, ADHD, and emotional challenges.

- Built a centralized digital platform with integrated portals for clinicians, parents, and community members to enhance transparency and engagement.
- Developed an Admin Portal with dashboards, analytics, patient onboarding, and therapy progress management.
- Created a Parent Portal enabling therapy progress tracking, secure messaging, and access to educational resources.
- Launched a Community Portal and Website to build a support network, share resources, and strengthen Pariva Health's online presence.

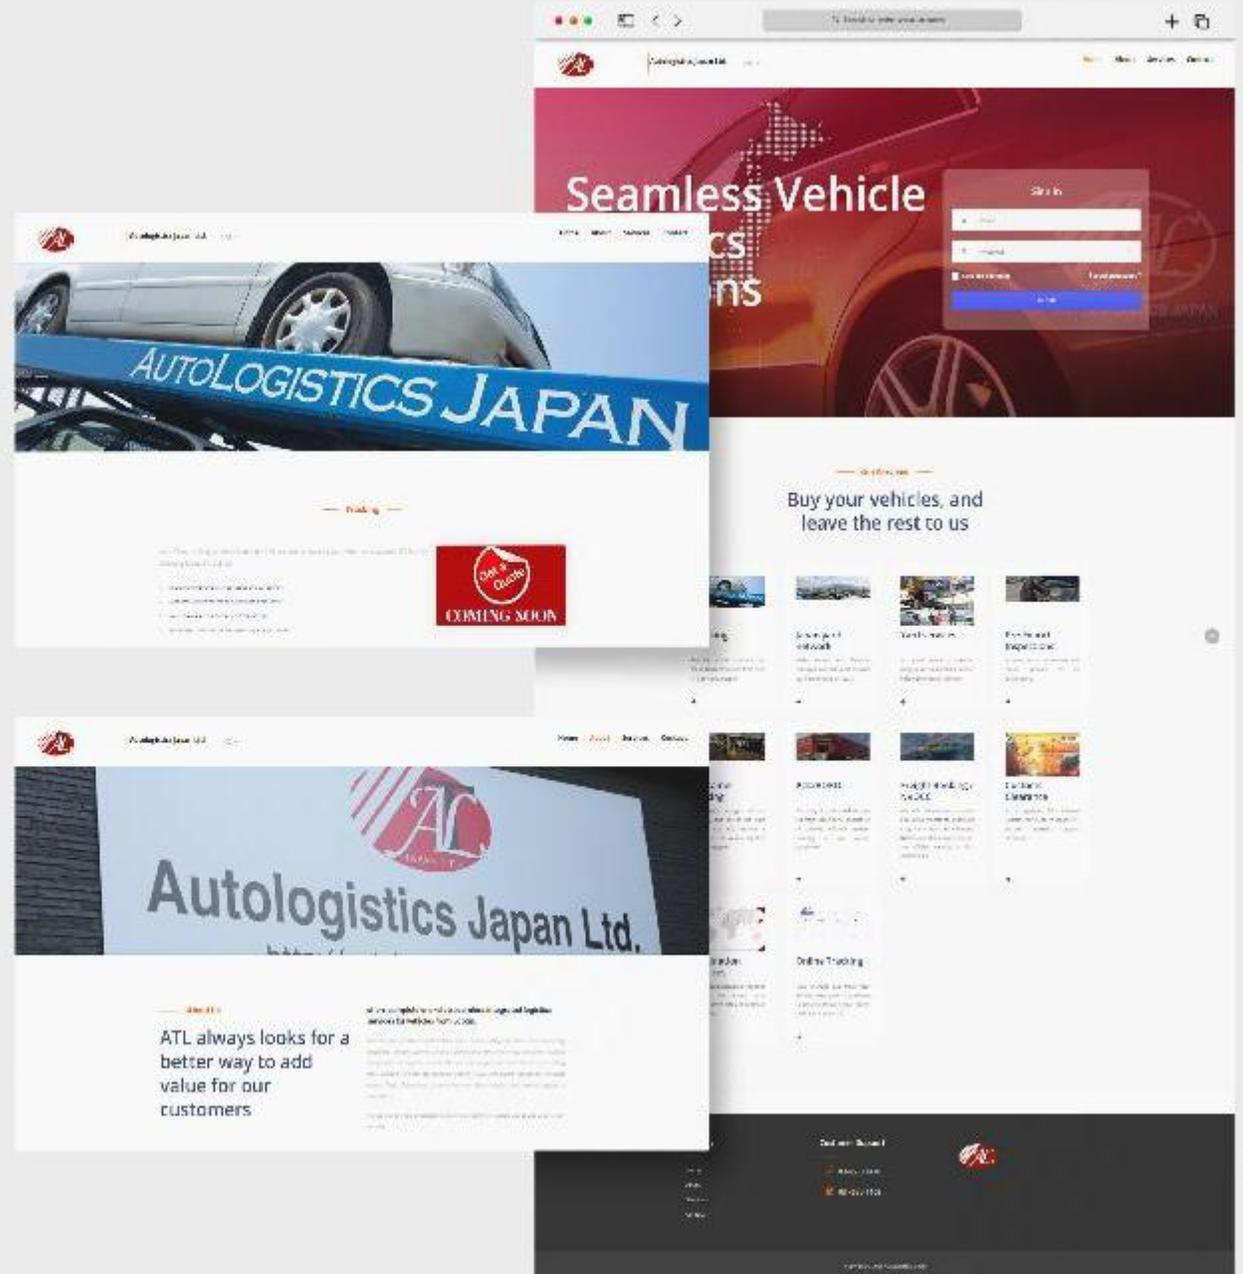

AUTOLOGISTICS JAPAN

Shipping Logistics

Designed and developed a modern, multi-service website for ATL Japan to showcase logistics offerings and enable customer engagement.

- Built a responsive, multilingual corporate website to represent ATL Japan's global vehicle logistics services.
- Developed service listing pages, inquiry forms, and customer login areas for real-time shipment tracking.
- Integrated content management tools for easy updates by ATL staff across service categories.

Thank you for your time

We appreciate you for considering our services and looking forward to working with you.
